

Special cleaner for white PVC windows and doors

Application areas

- for regular maintenance and cleaning of white PVC windows and doors, anodised aluminium, chrome and stainless steel, as well as roller shutters and other hard white PVC items
- for the maintenance of already installed windows, doors and roller shutters
- used both in the household for maintenance cleaning as well as in production and assembly work
- ideal for private users, window and door construction, cleaning companies

Depending on the application, we recommend the following alternatives:

- Wisaclean color for cleaning coloured plastic windows, painted or delicate surfaces
- Wisaklar-GR glass and mirror cleaner for cleaning of glass surfaces

Product benefits

- gentle on the skin
- pH-neutral
- phosphate free
- particularly intensive, yet gentle cleaning effect
- leaves a thin protective film

Base

aqueous surfactant cleaner with finely dispersed abrasive pigments

Restrictions

Due to its slightly abrasive effect, not suitable for painted surfaces, not even for stove-enameled aluminum.
Not suitable for degreasing before bonding / sealing.
Our range of products offers you a choice.

Self-tests

Due to the wide variety of surfaces and color formulations used in the field, in-house testing is required.

Processing

Thoroughly shake Wisaclean extra before use. Apply the product directly from the bottle onto a non-linting, slightly damp cloth. The surface should be cleaned with a light rubbing pressure in the longitudinal direction of the profile.

Crosswise and circular rubbing movements should always be avoided during cleaning! Once cleaning is complete, the surface should be wiped with a wet cloth. The cleaning process can be repeated in the case of stubborn soiling. Seal open containers tightly for further storage.

pH-value

ca. 7 (pH-neutral)

Processing temperature

from +5 °C up to +30 °C

Item no. + Delivery form

PR 332.500 - PE bottle of 500 ml
Packing unit of 24 PE bottles of 500 ml

Further containers on request.

It is possible to develop your own brand name with an appropriate volume of purchases.

Safety and disposal: Familiarise yourself with the valid Safety Data Sheets (SDS) for the products used. All applicable safety regulations and disposal instructions must be observed.

Observe: All information is based on careful examinations in the labs and our previous practical experience. They are non-committal notes. Due to the many materials that are marketed and the different processing methods, which we cannot influence, we can, of course, not assume any warranty, including under patent-law, for the result of your work. We recommend performing sufficient own tests to find out if the product meets the respective requirements. In addition, we refer to our terms and conditions of sale, delivery and payment, available at www.wisabax.ch/agb.html. © Wisabax AG - This technical data sheet replaces all older versions.

Have you noticed an unclear formulation or an error? Thank you for your feedback. In case of doubt, the German version of the technical data sheet applies.
